

GET NUTRITION GROWING

Here are several grant opportunities to earn money for your school while teaching principles of nutrition and healthy lifestyles:

School Garden Grant Opportunity

A new program from the Wisconsin Medical Society Foundation offers grants from \$500 to \$2,000 to public elementary schools wanting to establish a garden or enhance an existing garden.

Nutrition Service Learning Grant Opportunity

The Wisconsin Team Nutrition Program offers a new grant opportunity of \$1,500 each to district teams (middle school/elementary school) to participate in a service learning program that promotes healthy eating and activity as part of gardening or local foods activities while piloting the Nutritious, Delicious, Wisconsin curriculum.

Movin' and Munchin' Schools

DPI and the WEA Trust offer a program that encourages public elementary, middle, and high schools to develop creative strategies to promote healthy eating and exercise among students and staff. Schools that participate are eligible for grants up to \$1,000.
