Your Doctor. Your Health.

GEARING UP FOR

ICD-10

OCTOBER 1, 2013: WILL YOU BE READY?

ICD-10 compliance is two years away, but there's a lot to learn before the October 1, 2013 deadline. Get started now with Anatomy and Pathophysiology self-study curriculum, available through the Wisconsin Medical Society.

ICD-10 is much, much more than a new code set—it's an opportunity to provide better care through better documentation. And while implementation won't be easy, the Society has the resources you need to make the transition to ICD-10 successfully—starting today.

The benefits of the ICD-10 code set lie in the greater specificity physicians can provide in patients' records. This detailed documentation, however, requires a strong understanding of anatomy and pathophysiology by coding and billing specialists, clinical staff members and other members of the health care team. Because of this critical aspect of ICD-10, the Wisconsin Medical Society has partnered with the American Academy of Professional Coders (AAPC) to offer ICD-10-CM Anatomy and Pathophysiology (A&P) self-study training.

This Internet-based learning opportunity covers all body systems in 14 modules. The curriculum—which includes online multimedia presentations with downloadable manuals and evaluations for each module to ensure material comprehension—is available as individual modules or as a package. Materials may be accessed at any time from any computer with Internet access.

Cost

Save more than 60 percent when you purchase the 13 modules as a complete package, which includes a congenital malformations module:

- Individual A&P modules—\$29.95 each
- All 13 A&P modules, plus the congenital malformations module—\$149.95

Continuing education

AAPC members may earn one continuing education unit (CEU) for each module they successfully complete. If you belong to a professional organization other than AAPC, it is your responsibility to contact the organization to determine if this curriculum qualifies for continuing education credit.

Questions

Please call or e-mail Stephanie Taylor (608.442.3796, stephanie.taylor@wismed.org) or Joyce Kaping (608.442.3776, joyce.kaping@wismed.org).

Curriculum Order Information

Order by Mail

Send your completed order form and payment to:
Wisconsin Medical Society
Attention: Education Department
PO Box 1109
Madison, WI 53701-1109

Order by Fax

If you are charging your order, you may fax your completed order form, including credit card number and expiration date, to the Education Department at 608.283.5424.

Confirmation

Upon receipt of your order, a confirmation e-mail will be sent to you with instructions and links to access the materials.

For more information e-mail Stephanie Taylor at stephanie.taylor@wismed.org or call 608.442.3796, or Joyce Kaping at joyce.kaping@wismed.org or call 608.442.3776.

Note

This ICD-10-CM Anatomy and Pathophysiology curriculum is for personal use only and may not be copied, shared or disseminated.
