## **"No Discrimination in Health Insurance Act"**

**Congressman Steve Kagen, M.D.**  
Wisconsin – 8<sup>th</sup> District

"This legislation begins to ensure that every citizen has access to affordable health care. We must put an end to the common practice of allowing insurance companies to deny coverage to citizens with pre-existing medical conditions. Our U.S. Constitution protects citizens against discrimination, and it is time we apply this accepted principle to health care."

"It is time to put discrimination where it belongs – in the past."

"The No Discrimination in Health Insurance Act also brings transparency to our health care marketplace. This new law will require all health insurance companies to openly disclose their prices, and also requires them to charge every citizen within the region the same fee for the same service – just like restaurants do when they show us the price on the menu and charge every customer the same openly disclosed price for the same service."

"Let's put an end to the common practice of allowing insurance companies to deny coverage to citizens due to pre-existing medical conditions. If you're a citizen, you're in."
