From Asthma to Zika

A physician’s guide to summer

**Gregory M. Gauthier, MD**
Dr. Gregory M. Gauthier, MD, MS, is an Associate Professor (CHS) of Infectious Diseases at the University of Wisconsin–Madison. He completed his Internal Medicine Residency, Clinical Infectious Diseases Fellowship, and Research Fellowship at the University of Wisconsin–Madison. He is involved with basic science and clinical research, education, and clinical work, and his interests include fungal biology and vector-borne diseases.

**Angela Gibson, MD, PhD, FACS**
Doctor Gibson graduated in 2009 from the University of Wisconsin School of Medicine and Public Health, where she received her medical degree and also completed her surgical residency. She then completed a burn surgery fellowship at the University of California-Davis, and a fellowship in surgical critical care at the University of Wisconsin.

Doctor Gibson is certified by the American Board of Surgery in general surgery and surgical critical care. She specializes in trauma, emergency surgery, surgical critical care and burns. She also treats complex wounds. Her research interests focus on epithelial regeneration in burn injury, evaluation of skin substitutes, human skin model development for wound healing and understanding the burn wound microenvironment.

**Nathan D. Gundacker, MD**
Doctor Nathan Gundacker attended UW-School of Medicine and Public Health, University of California-Davis for an internal medicine residency and the University of Alabama at Birmingham for an infectious disease residency. He then went to Panama City, Panama, for a tropical medicine fellowship. He currently works at the Medical College of Wisconsin in the division of infectious disease and at the Milwaukee Veteran Affairs Medical Center where he sees general infectious disease and travel patients.
Erin M. Hammer, MD
Doctor Erin Hammer earned her medical degree from the University of Washington School of Medicine in Seattle, Washington. She completed her family medicine residency, primary care sports medicine fellowship and Master of Public Health degree from the University of Wisconsin-Madison. Her specific professional interests include concussion management, care of the female athlete, musculoskeletal ultrasound and teaching learners at all levels. Additionally, she serves as the team physician for the Badger wrestling team and Verona Wildcats football team, which she has covered for six seasons.

Stephen W. Hargarten, MD, MPH
Doctor Stephen Hargarten received his medical degree from the Medical College of Wisconsin in 1975 and his Master of Public Health Degree from Johns Hopkins in 1984. He is a professor in the Department of Emergency Medicine, associate dean for global health and director of the Comprehensive Injury Center at the Medical College of Wisconsin. Doctor Hargarten’s research interests reflect an intersection of injury and violence prevention and health policy to address the burden of this biopsychosocial disease. His work in linking data systems for understanding violent deaths informed the development of the Center for Disease Control & Prevention (CDC) National Violent Death Reporting System.

Doctor Hargarten serves on the national boards of Advocates for Highway and Auto Safety and the Association for Safe International Road Travel. He was inducted into the Johns Hopkins Society of Scholars and was elected to the Institute of Medicine in 2011 (now the National Academy of Medicine). In 2014, Dr. Hargarten began serving as president of the Milwaukee Global Health Consortium (formerly the Center for International Health), a consortium of nine member academic, health care and governmental organizations and agencies, dedicated to addressing local and global health issues including patient care, education/training, research and community engagement. He was the founding president of the Society for the Advancement of Violence and Injury Research (SAVIR) and has served on the Violence and Injury Prevention Mentoring Committee for the World Health Organization. Doctor Hargarten has been appointed to the Transportation Research Board of the National Academies of Science, Engineering and Medicine and to the Community Preventive Services Task Force of the CDC, both for a three-year term, beginning in 2019.

Daniel J. Jackson, MD
Doctor Jackson is an associate professor of Pediatrics in the Division of Pediatric Allergy, Immunology and Rheumatology at the University of Wisconsin School of Medicine and Public Health (UWSMPH). He received his medical degree from the UWSMPH and completed his pediatric residency training at the University of California-Davis. Doctor Jackson returned to the University of Wisconsin for his allergy and immunology fellowship and joined the faculty in 2010. His clinical and translational research has focused on the inception, exacerbation and treatment of childhood asthma.

Mary-Anne Kowol, MD
Doctor Kowol graduated from the University of Wuerzburg medical school in Germany. She completed her psychiatry residency and addiction psychiatry fellowship at the Medical College of Wisconsin (MCW) and was in private practice in Oklahoma for five years before accepting a position with MCW in Milwaukee. Doctor Kowol works at the Veteran Affairs and the Tosa Health Center in Milwaukee. She is the director of the addiction psychiatry fellowship.
Michael M. McNett, MD
Doctor McNett is the medical director for chronic pain at a large healthcare organization in Wisconsin. He has a background in family practice, addiction, emergency medicine, clinical research and psychology. After starting his career in primary care, he worked in emergency medicine, briefly in an integrative medical clinic, ran a multidisciplinary fibromyalgia treatment center and has been doing non-interventional pain management for the last 16 years (including his work in fibromyalgia). Recently, he has worked with the Wisconsin Medical Society, the Wisconsin Medical Examining Board, former Attorney General Brad Schimel and State Representative John Nygren on developing CME, public information, guidelines and legislation to address the prescription opioid epidemic.

Edit B. Olasz Harken, MD, PhD
Doctor Olasz Harken is an associate professor of dermatology at the Medical College of Wisconsin (MCW). She received her medical degree and Ph.D. from the University of Szeged, Hungary and completed her dermatology residency at the MCW where she served as chief resident. Doctor Olasz Harken has extensive basic science training in skin immunology, including a postdoctoral fellowship at the Dermatology Branch of the National Institutes of Health. She is an expert in treating high-risk skin cancers in immunosuppressed patients, is a member of the Froedtert Multidisciplinary Transplant Skin Cancer Group and is the director of the Aesthetic and Laser Surgery Clinic. Additionally, she serves as the dermatology chief at the Milwaukee VA Medical Center. She has numerous scientific publications and book chapters, has been an invited speaker to many national and international dermatology meetings and served as a formal mentor for both the American Academy of Dermatology and the American Society of Dermatologic Surgery leadership programs.

Patrick L. Remington, MPH
Doctor Remington is the associate dean for public health and professor of population health sciences at the UW, School of Medicine and Public Health, and directs the school’s Preventive Medicine Residency Program. He was an epidemiologist at the Centers for Disease Control & Prevention (CDC) and the Wisconsin Division of Public Health for 15 years, prior to joining the UW. At the UW he has served as associate director of the Carbone Cancer Center and was founding director of the UW Population Health Institute and the Master of Public Health Program. His research focuses on developing methods to measure the health of communities and he founded the Robert & Wood Johnson-funded “County Health Rankings” project that ranks the health of the counties in all 50 states. Doctor Remington earned a Bachelor of Science degree in molecular biology and a medical degree from UW-Madison; completed an internal medicine internship at Virginia Mason in Seattle; the Epidemic Intelligence Service (EIS) and preventive medicine residency at the Center for Disease Control & Prevention (CDC); and a masters of public health degree from the University of Minnesota.
Kyu Rhee, MD, MPP
Doctor Rhee serves as chief health officer of IBM, where he has global responsibilities for Watson Health and assuring a culture of health at IBM. Prior to joining IBM, he was chief public health officer at the Health Resources and Services Administration (HRSA), which is the primary federal agency for improving access to health care services for uninsured, isolated or medically vulnerable people. Doctor Rhee also served as director of the Office of Innovation and Program Coordination at the National Institutes of Health (NIH), the primary federal agency for research. Prior to his federal government service, he worked in community health settings as the chief medical officer of Baltimore Medical System Inc., the largest network of Federally Qualified Health Centers in Maryland. Doctor Rhee also served five years as a National Health Service Corps Scholar and medical director at Upper Cardozo Health Center, the largest community health center in Washington, DC.
Doctor Rhee received his medical degree from the University of Southern California, was a chief resident and completed medical residency training in internal medicine and pediatrics at Cedars-Sinai Medical Center in Los Angeles. He also holds a master’s degree in public policy from the John F. Kennedy School of Government, Harvard University with a concentration in health care policy. His Bachelor of Science degree is from Yale University in molecular biophysics and biochemistry.

Joyce L. Sanchez, MD, FACP
Doctor Joyce Sanchez is a graduate of the Johns Hopkins University School of Medicine, where she also completed her internal medicine residency. She completed her infectious disease fellowship training at Stanford Hospital and the University of Minnesota and began her career at the Mayo Clinic in Minnesota. In 2017, she joined the Medical College of Wisconsin as an assistant professor of medicine where she serves as director of the Travel Health Clinic within the Division of Infectious Diseases. Her clinical interests include travel and tropical medicine, vector-borne illness and medical education.

Jonathan L. Temte, MD, PhD
Doctor Temte pursued his medical training at the University of Wisconsin School of Medicine and Public Health, receiving his medical degree in 1987. He is a 1993 graduate of the University of Wisconsin-Madison Family Practice Residency Program where he stayed on as a faculty member, achieving the rank of professor. He teaches family practice residents and practices full-spectrum primary care medicine to an underserved and highly diverse community at Wingra Family Medical Center in Madison, Wisconsin. Doctor Temte currently chairs the Wisconsin Council on Immunization Practices. He served as a voting member of U.S. Advisory Committee on Immunization Practices from 2008 to 2015 and was the first family physician to serve as chair, a position he held from 2012 to 2015. He has participated on pandemic influenza and bioterrorism working groups for the state of Wisconsin and has just been appointed to the Centers for Disease Control & Prevention Board of Scientific Counselors. He is the principal investigator of the Wisconsin Influenza Incidence Surveillance Project, the Oregon Child Absenteeism Due to Respiratory Disease Study, and the Rapid Assessment of, and Prophylaxis for Influenza in Dwellers of Long-Term Care Facilities Project (RAPID-LTCF). His current research interests include viral disease surveillance in primary care and communities, seasonality and epidemiology of influenza and attitudes toward immunization.

Ryan J. Wubben, MD
Dr. Wubben is a Clinical Professor of Emergency Medicine at the University of Wisconsin School of Medicine and Public Health and the Division Chief of Prehospital Medicine in the Department of Emergency Medicine. He graduated from the UW School of Medicine and Public Health in 1997 and then completed an Emergency Medicine Residency at Indiana University. As part of his residency experience, he trained as a flight physician with the IU Helicopter EMS flight program. After a stint in private practice in North Carolina, he returned to the University of Wisconsin in 2004, working in both the ED and the UW Med Flight program. From 2008-2018, he served as the medical director for Med Flight before moving up into the new role of Division Chief for Prehospital Medicine in the fall of 2018. He works primarily as a flight physician with UW Med Flight and is the medical director of the UW Athletic Department EMS program that serves Camp Randall and the Kohl Center.
