Improving Opioid Prescribing

In response to concern for the opioid abuse epidemic, this Wisconsin Medical Society webinar series is aimed at improving opioid prescribing without compromising the quality of patient care.

Available on demand, the webinars are presented by Wisconsin physicians who specialize in addiction and pain management and other subject matter experts to address the challenges faced by physicians and other prescribers.

Wisconsin Medical Examining Board Opioid Prescribing Guideline*

Michael McNett, MD, Medical Director for Chronic Pain, Aurora

Clear understanding of the Wisconsin Medical Examining Board's Opioid Prescribing Guideline allows prescribers to make informed decisions about acute and chronic pain treatment and remain in compliance with state licensure statutes. This two-hour webinar provides a comprehensive review of the Guideline including information about the Enhanced Prescription Drug Monitoring Program.

**This webinar has been approved by the MEB to meet the requirements for the two-hour continuing education course on responsible opioid prescribing per Med 13.03(3) of the Wisconsin Administrative Code.*

The Opioid Epidemic and the Clinical Prescriber: Responses to Opioid Over-Prescribing

Michael Miller, MD, FASAM, FAPA, Medical Director, Herrington Recovery Center, Rogers Memorial Hospital

This 90-minute webinar takes a societal view of the opioid epidemic, addressing the policy and regulatory landscape to ensure the adherence to safe prescribing practices and to define the prescriber's role as promoter of public health with respect to opioids.

Legal Requirements for Opioid Prescribing in Wisconsin

John Rather, JD, General Counsel, Wisconsin Medical Society

In this webinar, Attorney Rather discusses new regulations and the ways in which they impact Wisconsin physician practices, including risk management strategies to reduce potential liability.

How to Decrease Prescription Drug Abuse: The What, Why and How

David Galbis-Reig, MD, DFASAM, Medical Director of Addiction Services, Wheaton Franciscan Healthcare – All Saints

With a focus on evidence-based solutions to alter the course of the opioid epidemic, this one-hour webinar provides a historical perspective and highlights current epidemiological data.
