The Accreditation Statement is the standard statement that must be used by all accredited organizations. There are two different statements that might be used depending on the number and relationships of the organizations involved in planning and implementing the activity:

**Direct Activity** – An activity planned and implemented by a Wisconsin Medical Society accredited provider.

**STATEMENT OF ACCREDITATION**

The [name of accredited provider] is accredited by the Wisconsin Medical Society to provide continuing medical education for physicians.

**AMA/PRA DESIGNATION STATEMENT**

*AMA Credit Designation Statement*

The [name of accredited CME provider] designates this [learning format] for a maximum of [number of credits] AMA PRA Category 1 Credit™ requirements. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The learning format listed in the Credit Designation Statement must be one of the following AMA approved learning formats:

1. Live activity
2. Enduring material
3. Journal-based CME activity
4. Test-item writing activity
5. Manuscript review activity
6. PI CME activity
7. Internet point-of-care activity

**Joint Activity** – An activity planned and implemented by one accredited provider working in partnership with a non-accredited entity. The accredited provider must ensure compliance with the Wisconsin Medical Society’s Accreditation Requirements and Policies and therefore take responsibility for the activity as indicated in the accreditation statement.

**STATEMENT OF ACCREDITATION**

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Wisconsin Medical Society through the joint providership of [name of accredited provider] and [name of nonaccredited provider]. The [name of accredited provider] is accredited by the Wisconsin Medical Society to provide continuing medical education for physicians.

**AMA/PRA DESIGNATION STATEMENT**

NOTE: There is no "co-providership" accreditation statement. If two or more accredited providers are working in collaboration on a CME activity, one provider must take responsibility for the compliance of that activity. Co-provided CME activities should use the directly provided activity statement, naming the one accredited provider that is responsible for the activity. The Wisconsin Medical Society has no policy regarding specific ways in which providers may acknowledge the involvement of other accredited providers in their CME activities.
